

Directions from Granada Airport to El Geco Verde

If you have a GPS program it to go to Pozo Alcon (in the province of Jaen). From there please follow our written directions as GPS devices do not always give reliable information, especially for the very last part of the journey. The scenery is lovely and rewards a daytime trip. If you are arriving at night please call one of us when you get to Pozo Alcon so we know to expect you. **Des; (0034) 663281408 Ilaria (0034) 647136120**

Granada airport is really easy to navigate; it's small and there is only one road in and out. There are two petrol stations up the road from the airport if you have to fuel up. After the second petrol station the road curves around to the left; as it does so, look for a turn off to the right indicating the **A92/Granada**. Take this exit and then follow the signs for **Murcia**. You will remain on this road for around an hour. As you pass **GUADIX** the A92 splits in two. You have to deviate to the right, following the signs for Murcia and, more specifically, **BAZA**.

At junction 25 of the A92 you come off the motorway, cross the bridge and turn left, as if you were about to get back on the same motorway back towards Granada. As you come around you will see a road off to the right signposted **BAUL, BACOR, EMBALSE DE NEGRATIN**. Take that turning. Just before **km11** of this road there is a right turn, signposted **POZO ALCON**. Take that road and at the next junction you will find yourself with a petrol station on your right and a fairly large hotel on your left. Turn left, following signs to **CUEVAS DEL CAMPO** and **POZO ALCON**. You will then cross the dam of a very large reservoir, the Embalse de Negratin. On the RHS just after the dam there are a couple of bars/restaurants that make for a lovely spot for a break if you need one (bear in mind that out of season they may not be open). Your route then continues past Cuevas del Campo (petrol station here) and at **km70**, filter right, into Pozo Alcon (last petrol station before the hotel). As you reach the bottom of the hill you will see a roundabout with a small fountain; take the first right, signposted **EMBALSE DE LA BOLERA, HUESCAR, A326**. Pozo Alcon is km 0 (zero) of the A326, the first 7kms of which is basically one long, straight road. Just after km7 the road bends and you go past a campsite, then around the back of a big dam, continuing on through a heavily forested area. **STAY ON THIS ROAD**. Around Km14 you will see a sign saying **CAMPO CEBAS**. At **km16** you pass a roadside bar called

LOS MANALONES. Soon after this comes a right turn signposted MANUEL DIAZ - take this turning and at the bottom of the hill you will see the first of the signs to **EL GECO VERDE**. Follow the road as it loops around to the right across a dry river bed and you will see the second of our hotel signs directing you past a white building with post boxes on the wall, between some buildings, across a cobblestone courtyard, past a little church on your right, a few more houses (another hotel sign) and then the cemetery, again on your right. The next El Geco Verde sign directs you to take the left fork in the farm track just after the tarmac runs out. Check your mileometer, as it is exactly 3kms to the hotel from here. It is a flat track, very safe, so stay on it and don't worry. At 2.7 kms, take the right fork in the road, go left around the big tree and approach the hotel up a short steep hill.

If you have any difficulties do not hesitate to phone us:
